FROM WASHINGTON.

Items of Interest Gathered at the National Capital.

A NEW FOOD JUST DISCOVERED.

Bananas Can Be Raised, Dried, and Shipped to Northern Ports and Sold at a Great Profit—No Limit to the Amount That Can Be Produced—Other National News.

WASHINGTON, June 23.—Drying bananas for shipment has been tested in Trinidad, West Indies, with marked success. A report received by the bureau of American republics sets forth that the cost of producing a bunch of bananas weighing fifty-two pounds, including the purchase of land, clearing, draining, planting, weeding, cutting, drying, fuel, boxes and packing for market would average only fifty-three cents.

The fruit, in drying, loses one-third of its weight. When dried it sells readily at sixteen cents a pound. Allowing for the loss of weight, this would yield \$2.72 a bunch—a clear profit of \$2.19.

An actual sale of nearly one hundred boxes of the dried fruit has been recently made in Canada at twenty cents a pound, and the Canadians are asking for more at the same price.

The dried fruit can be conveyed to market from remote districts over bad roads without injuring the fruit, and the risks of handling and the sea voyage are reduced to a minimum.

This is an entirely new and valuable industry. The banana is the most productive of all fruits. Once planted it perpetuates itself, and the trouble is often to get rid of it. Its productiveness is stated to be forty-four times greater than that of the potato, and 131 times greater than wheat. The driers in operation are found to do their work well. Care is taken to select bananas of as nearly as possible the same size for convenience for packing, and to secure uniformity of color. The dried product is not only palatable as a fruit, but is a most nutritious article of food. There is practically no limit to the amount that can be produced.

Will Do the Best They Can.

WASHINGTON, June 23.—A private letter from Peru brings the information that Admiral Brown and the other officers of the United States naval fleet on the west coast of South America paid an official visit to the president of Peru on the 5th of May, and were received by him with great ceremony and cordiality. During the visit the president expressed interest in the Chicago exposition, and said that although the country was very poor they realized the importance of being well represented at the exposition, and should make the finest display that the means of the government would permit.

Treasury Statement.

WASHINGTON, June 23.—Mr. McLehlan, chief of the warrant division of the secretary's office, makes the following statement of the condition of the treasury. Balance in treasury June 1, \$10,138,473; receipts to date, \$21,663,124; total, \$31,801,597. Payments to date, \$27,136,718. Balance available June 22, \$4,664,879.

The treasurer's statement, issued yesterday, but which bears date of the 19th inst., shows a cash balance of \$42,952,918, or \$263,164 less than the total amount of deposits in national banks and of fractional silver.

Two Cases of Drowning.

WASHINGTON, June 23.—Two sad cases of drowning occurred here yesterday of boys about fifteen years of age. One of them, Charles Davis, while carrying a milk can on board a steamboat slipped from the gang plank, and, although a brave man jumped in after him and tried to save him, he went down within sight of his frantic and heartbroken mother, who stood on the wharf. The other, Rodger Connell, a colored boy, while bathing, got beyond his depth, and like the Davis boy, lost his life.

After Fishery Information.

WASHINGTON, June 23.—The state department has been notified by the British government that Sir George Baden Powell and W. Dawson, of the Canadian board of surveys, have been appointed agents of that government to visit Alaskan waters and obtain information on the seal fisheries question for use of the arbitration commission to be appointed. They have been recognized by the state department and the treasury agents in Alaska will be instructed to show them the usual courtesies.

Extra Health Precautions.

WASHINGTON, June 23.—Assistant Secretary Nettleton has directed Immigrant Superintendent Weber, at New York, that state health officers be furnished with a list of immigrants bound for interior ports when contagious diseases are known to have prevailed on shipboard or in the towns whence they came. This action is taken, as Surgeon General Wyman states, because of the danger that such diseases may be imported in the baggage of immigrants.

Paper for Bonds and Money.

WASHINGTON, June 23.—The contract for furnishing the treasury department with distinctive paper upon which to print money, bonds, etc., has been awarded to Crane & Company, of Dalton, Mass., at forty-three and one-half cents per pound.

Will Be Taken Back.

WILMINGTON, Del., June 23.—The body of Count Reinhold Abraham Levenhaupt, son-in-law of ex-Secretary Bayard, was disinterred yesterday and will be sent to New York, whence it will be shipped to Stockholm.

THE CASE DELAYED.

Non-Appearance of Witnesses in the Elliott Murder Trial at Columbus, O.

COLUMBUS, O., June 23.—Great delay was occasioned in the Elliott trial by the non-appearance of state's witnesses during the morning's session. Attorney Hunter, however, submitted his report as to his investigations in the charges of contempt of court made by Colonel Taylor, against The Dispatch and Sunday World. The report was a wet blanket to the opposing attorney. Mr. Hunter held that neither paper was guilty of contempt, and his report was very voluminous. The Dispatch had reported that some one was doing the jury, but did not say against either the defense or prosecution. The reporters will now suffer no inconvenience of imprisonment as threatened and prayed for by the defendant's attorneys.

The Sunday Capital newspaper property, including the press and motor, was bought at sheriff's sale yesterday by Mr. Cal Johnson, the late editor of the paper, for \$450. Mr. John H. Rees, who was wounded by the Elliotts, was the only bidder against Mr. Johnson.

EX-SENATOR McDONALD'S REMAINS.

They Will Be Buried in Crown Hill Cemetery Wednesday Afternoon.

INDIANAPOLIS, June 23.—Arrangements for the funeral of ex-Senator McDonald have been perfected. The services will be held at his late residence Wednesday afternoon and internment will be at Crown Hill. The public will be admitted to the home of the deceased to view the remains from 1 to 3 o'clock, Wednesday afternoon. The funeral also will be public. These arrangements accord with the expressed wish of the deceased.

Mrs. McDonald is in receipt of a large number of telegrams from prominent persons throughout the country, all expressing sincere regret at her loss, which they regard as a public calamity. A telegram from President Harrison says: Mrs. Harrison joins me in offering to you and to the family a most sincere sympathy in the great sorrow which has fallen not only upon you and them, but upon the community in the death of Mr. McDonald. I regret that I am not able to unite with other home friends in the last office of respect and honor.

Railroad Wreck.

SPRINGFIELD, Ill., June 23.—A serious accident occurred on the Chicago and Alton railroad yesterday, at a point between Elkhart and Williamsville. Soon after the passenger train passed south, a freight train, with two engines attached, pulled out of Williamsville and started north. After proceeding about two miles it collided with an engine and caboose coming south. Three engines and six cars were torn to pieces, and Engineer George Brown, of Bloomington, was fatally injured. Two other trainmen were slightly injured. The accident resulted from the failure of somebody to display proper signals.

Socialistic Riot.

VIENNA, June 23.—A savage riot occurred Sunday at Bathya, Hungary. A mob of field laborers, incited by socialistic agitators, attacked the town hall at that place and would probably have wrecked the building had it not been for the desperate resistance made by a small force of gendarmes who had stationed themselves behind its walls. The gendarmes fired upon the mob, killed four of the rioters upon the spot and severely wounded seven others. This checked the ardor of the socialistic element and the authorities soon after completely restored order.

No Fight Arranged.

NEW YORK, June 23.—Charles Johnson and James Wakely, according to their announcement, called at the office of The Illustrated News yesterday afternoon to meet the backers of Slavin, and endeavor to arrange a match between Slavin and Sullivan. Slavin's friends, however, did not put in an appearance, and Johnson and Wakely, after waiting an hour for them, decided to allow the \$1,000 to remain with The News, so that Slavin's backers can cover it whenever they are ready.

Mail Coach Robbed by Brigands.

ST. PETERSBURG, June 23.—A dispatch from Tiflis says that a band of seven brigands recently robbed a mail coach near Slajan, killing two travelers, and severely wounding a postilion. The brigands then pillaged the village of Slajan and escaped with their booty. A squadron of Cossacks has been sent in pursuit.

A Minister to Be Arrested.

LANCASTER, Pa., June 23.—A warrant has been issued for the arrest of Rev. N. A. Barl, of Adamstown, this county, who is charged with sending an abusive postal card to Rev. Mr. Spring, of Cleveland, O. The prosecution is the outgrowth of the Bowman fight in the Evangelical church.

Foolhardy Undertaking.

MARBLEHEAD, Mass., June 23.—Captain Lawlor sailed at 5 o'clock yesterday evening on his trip across the Atlantic in a dory. He was cheered by a crowd of people on shore, and guns were fired from the yachts in the harbor.

Locomotive Engineers Meet.

CONCORD, N. H., June 23.—The Brotherhood of Locomotive Engineers held their union meeting Sunday. About eleven hundred members were present. Grand Chief Arthur was in attendance.

Explosion of Dynamite.

CHESTER, Pa., June 23.—Peter McLaughlin was killed and John Polker severely injured by a premature explosion of dynamite at Leiper's quarries yesterday.

Riots Are Expensive.

HARRISBURG, Pa., June 23.—The total amount of expenses for the maintenance and transportation of troops during the coke region riots was \$35,020.22.

REVOLUTION IN CHILI

Some Startling Facts Just Made Public.

A VERITABLE REIGN OF TERROR.

Balmaceda a Tyrant According to the Story of Three Men Now in New York City—Strength of the Revolutionists. Arms and Ammunition in Great Demand.

NEW YORK, June 23.—Many startling facts in connection with the revolution now raging in Chili, which throw light upon the ferocity and despotism of Balmaceda, are now given to the public for the first time through the United Press.

The three gentlemen, two of whom are prominent Chileans, from whom these facts are obtained, are at present in New York, having arrived here last week. They have witnessed the conduct of the revolution from its inception, and speak from actual knowledge.

The combined stories of the three show that Balmaceda is well termed "The Tyrant." In Santiago, where his headquarters are, no one dares to utter a word against him. He has caused a cross of red to be painted on all the houses of people whom he suspects are not wholly in sympathy with him, and into these marked residences his police and soldiers go at any hour of the day or night. They ransack the rooms on the ground that they are looking for revolutionists who are supposed to be hidden there. The soldiers demand wine and food, and after having as good a time as they wish, depart, only to repeat the offense in some other marked residence.

The people in these houses are forbidden to lock their doors. No one is allowed to ride on horseback through the streets after 5 o'clock in the afternoon; no three persons are allowed to walk the streets in company at any time of the day, and no two persons can stand and converse on the street. It is a veritable reign of terror for all who either through fear or interest have failed to cast their fortunes with Balmaceda.

The store keepers, and all who employ laborers, have to furnish each one with a tag showing that they are regularly employed by such a merchant at such a place. If the laborer is caught on this tag he is gobbled up by the soldiers of Balmaceda and impressed into his service. This system exists in Valparaiso also.

One of the gentlemen referred to was walking along the street past a jailyard, and he heard some terrible shrieks from some one on the other side of the wall. He inquired of a soldier the cause and was told that some of Balmaceda's soldiers were punishing a man who had refused to work for him, by driving tacks and pins into his hands and fingers. The next day he saw a horrible punishment meted out to a Chilean who had been heard to say that he was willing to work his hands off for the revolutionists. The poor fellow's hands were placed on a block and his fingers pounded to a jelly by a big mallet in the hands of a soldier. He was then told that he could work his hands any way he wanted to for any one.

The New Yorker denounced the affair to a friend—a resident of Santiago, who was with him. The next day his friend was missing nor did he show up again. The New Yorker returned to Valparaiso, and just before he sailed he received a message from his friend saying that he had been looked up by Balmaceda's men, accused of being a revolutionist sympathizer.

The weak point of the revolutionists is the lack of arms and ammunition. The forces of the revolutionists number at present 8,000 men fully armed and equipped. Could the necessary arms be secured the number would at once be increased to over 10,000. There are now at Huasco, Valparaiso, Freirina and Carizal, bodies of men—in all some 9,000—who are only waiting to get arms and ammunition before they take up the march against Balmaceda. At the smaller places on the coast, as far north as Arica, are similar companies of would-be soldiers. The arms for these men were on the Itata, and had they secured them with what ammunition the Itata carried, the Chilean revolution would have been settled in short order.

Balmaceda's army consists of 25,000 men well equipped. Of these only 3,000 are of the old regular standing army; the rest are recruits forced into service.

"Balmaceda," said one of the gentlemen from whom these details are obtained, "calls these men volunteers." To give you an idea of how voluntary the service of these men is, I have seen batches of them numbering from twenty to fifty each brought into Valparaiso, and surrounded by soldiers with fixed bayonets. This I have seen more than twenty times. I also saw a letter from the intendant of one of the southern provinces written to Balmaceda, in which he said, "I regret being unable to send you a larger number of volunteers owing to the scarcity of hand-cuffs; so you can see what sort of fighting material Balmaceda has to count on. He pays the officers of his army extra wages to keep them in good humor, and to have them rule the troops with an iron hand. 'Before we left Valparaiso, I was almost convinced that Balmaceda would win the fight, so great did his power seem, but the farther north we got the more I was impressed with the numbers and determination of the revolutionists.'"

The generals of Balmaceda's army, as well as the principal officers, are said to be superior in military training to those of the revolutionists' forces.

One of the most prominent leaders of the revolutionists—Don Pedro Montt, is said to be on board the Pacific Mail steamship City of Para which will arrive here on June 24. It is said he comes to confer with the authorities at Wash-

ington looking toward their recognition of the revolutionists as belligerents.

A rumor was also current in Spanish circles yesterday that the European agents of the revolutionists had paid the balance of the contract money due on the two cruisers that have just been finished for the Chilean government, and have loaded and dispatched these vessels to Chili, where they will fight against Balmaceda. If this rumor is true it will be the hardest blow the revolutionists have yet struck.

LOST ON THE MOUNTAIN.

Five Hundred Men Searching for Little Anna Frederick.

WILKESBARRE, Pa., June 23.—Tuesday forenoon, June 16, Rose Frederick, aged 15, and her sister Anna, aged 5, daughters of Herman Frederick, an employe of the Red Ash Coal company, residing in Laurel Run borough, about two miles and a half from Wilkesbarre, started to the mountain to pick huckleberries.

The children are accustomed to wandering on the mountains, and no alarm was felt over the absence until evening when the eldest girl returned home without her sister.

The story told by the girl is that she gave Anna some berries in her dress and told her to sit down and wait while she picked more. After a short time she returned to the place where she had left her sister. She was pained to find that she had disappeared from the spot, but thinking that perhaps she had gone home, which was not far distant, she returned home, and there first learned that the child had not returned home.

A searching party immediately was organized and the whole country scoured, but thus far without discovering any sign of the missing child.

Sunday a searching party of five hundred or more went over the ground, but failed to discover anything.

The father of the child is poor, but the neighbors have taken hold and the search will not be abandoned as long as there is any thicket or brush patch left to examine.

THE LEPROSY COMMISSION,

After a Searching Investigation, Will Soon Report.

LONDON, June 23.—The report of the leprosy commission, which has been inquiring since November last into the conditions under which this disease spreads and breeds in India, is approaching completion. The commission is now sitting at Simla, preparing its report, which will present the most exhaustive, scientific study of the subject ever given to the world. The commission, which is composed of medical experts, has visited leper hospitals and studied the condition of lepers in prison, in streets and in some isolated leper communities. Every part of India where leprosy prevails has been locally studied with a view to ascertaining how far conditions of environment assist in propagating the disease. Some thousands of cases have been examined, microscopic researches made into the distribution of the supposed bacillus of leprosy and a series of bacteriological investigations conducted, which are said to have given astonishing results, promising the cure of this hitherto irremediable curse. The report, which specially deals with the question of contagion and heredity, will be sent on to the Indian government and transmitted to the home Indian office about the end of the month.

THE ESMERALDA WORSTED

In an Attempt to Forcefully Take Provisions from an Island—Fifty Killed.

WASHINGTON, June 23.—The Chilean legation in this city has received a telegram from Peru which says in substance that when the war ship Esmeralda, after her voyage to San Diego, arrived at the Tabos giano islands, the captain, being short of provisions, landed fifty men to take possession of the provisions on the islands. The employes and workmen in care of the islands attacked the men from the vessel, killing them and taking possession of their arms. The Esmeralda fired eighty shots, exhausting her ammunition.

The dispatch concluded as follows: "It is false that the Chilean government derived any benefit from the Tabos islands, whose works have been stopped since January. Perfect order reigns in Chili, and the army, well disciplined, is anxious to go to Tarapaca and make an end of the nitrate speculators."

Railroad Sale Blocked.

DECATUR, Ill., June 23.—The attempt of President Pierce and other trustees to sell the Indianapolis, Decatur and Western railway property, which extends from Indianapolis to Decatur, a distance of 153 miles, has been blocked by Judge Vail. Saturday he ordered a temporary injunction until Aug. 6, when he will hear arguments on the motion for the appointment of a receiver. Harris and Allen, who own \$100,000 of the stock, claim that the trustees, even with the authority of the directors, have no right to sell any portion of the property as contemplated. Harry Crawford, of Chicago, is the representative of the objecting stockholders.

Kuhns Jury Complete.

TIFFIN, O., June 23.—The trial of Marvin Kuhns for the murder of William Campan, at Fostoria, began here before a big crowd. The jury was secured by 4 p. m. and two witnesses examined. The names of the jurors are: Harry Cronwell, G. A. Heers, Lafayette Stegerwalt, Henry Sheerer, W. O. Dean, Augustus Lamb, M. D. Ricketts, John Claybaugh, J. W. Armitage and Charles F. Beard. Kuhns was brought into the court room heavily chained and guarded.

A Carpenter's Fall.

SPRINGFIELD, O., June 23.—Henry May, a carpenter working on the Gottwald building, fell from the second story yesterday afternoon, fracturing his skull and breaking several ribs, besides being injured internally.

TUESDAY, JUNE 23, 1891.

DEMOCRATIC STATE TICKET.

For Governor,
JOHN YOUNG BROWN.
For Lieutenant Governor,
M. C. ALFORD.
For Attorney General,
W. J. HENDRICK.
For Auditor,
L. C. NORMAN.
For Treasurer,
H. S. HALE.
For Register of Land Office,
G. B. SWANGO.
For Superintendent Public Instruction,
E. PORTER THOMPSON.
For Clerk of Court of Appeals,
ABRAM ADDAMS.

It is reported there are fifteen Maysville people employ at present in one town not far distant. This does not speak well for Maysville.

The Louisville Critic is authority for the statement that every one of the Judges of the Court of Appeals and Superior Court is in favor of the new Constitution. Most of the leading men of the State favor it.

Mr. CHARLES L. DUDLEY was nominated for Representative yesterday by the Fleming County Republicans. The fight is to be a triangular contest, and will be a lively one between Hart, Hinton and Dudley.

Foster's Forecasts.

Foster, the weather prophet, tells of some more storm waves in his letter this week. He says: "My last letter gave forecasts of a storm wave due to cross the continent from June 25th to 29th. The next will be due to leave the Pacific coast about June 30, cross the Rocky-Allegheny valley from July 1st to 3rd, and reach the Atlantic coast about the 4th. There are no special features about this storm wave, except from this on throughout the year all the storm waves will show increased energy. The storm will take a northern route and the weather preceding it will be very warm, and will constitute one of the hot periods of July, but will not be of long duration. Rains will fall only in spots, and the weather will be too dry, in many places, for the good of the crops. More copious rains may be expected for the two weeks following July 10th."

The Railroads.

Hereafter passengers going into Lexington on the K. C. can go out on the L. and N. without the expense of transferring their baggage. The K. C. will stop at the L. and N. depot, where the baggage can be transferred for points on the L. and N. without charge.

A schedule has been about completed for running a new through freight line from St. Louis and Cincinnati to Norfolk. It will be known as the Cumberland Gap Dispatch, and will begin running about the first of July. The line will run a part of the way over the Kentucky Central and will connect at Norton, Va., with the Norfolk and Western, which gives direct communication with the seaboard. Passenger trains will also be put on from Cincinnati to Norfolk.

CARLISLE ON 1892.

The Kentucky Senator Caught for an Interview.

The Buffalo Enquirer, of Friday, publishes a special from a staff correspondent who interviewed Senator John G. Carlisle on a train between Lexington and Louisville. The correspondent asked his opinion as to who would be prominent before the National Democratic convention, to which he replied:

"No one can predict who will be the Democratic nominee for the Presidency in 1892. A great deal will depend on the action of New York. Her delegation will, of course, be very potent in the convention, and if it comes instructed for a New York man the delegates from other States will either take him or go outside of the State for a candidate. There are many who think that the party has gone to New York for its candidate often enough, but the vote of the State has always been necessary to elect the nominee, and may continue to be necessary hereafter, and consequently the preferences of her delegates will have great weight with the convention. In my opinion, unless the situation changes very greatly, we can elect any honest and capable Democrat who is nominated in 1892, and it is not worth while to waste time to attempt to predict who he will be.

"I do not think that the third party will have much influence upon the result of the elections of 1892, even if it should determine to nominate a candidate of its own. It will certainly not carry any Democratic State nor seriously embarrass us in any Democratic State. If it carries any State or affects the result in any State, it will be in the Republican Northwest, and the very worst it could accomplish would be to throw the election of President into the House of Representatives. In that event a Democrat would certainly be chosen, as we have control of the delegations in that body from a large majority of the States.

"In the event of Cleveland's nomination, would his present letter in opposition to free coinage of silver militate against him so far as to anger the party?

"In regard to the effect of Mr. Cleveland's letter in opposition to the free coinage of silver I suppose it is no secret that it excited considerable feeling against him in some parts of the country, and very considerably increased his popularity in some other parts. Whether in the end it will prove advantageous or disadvantageous is a question which no one can decide now. It would, in my opinion, be exceedingly bad policy to permit the silver question to become the paramount one in the campaign of 1892. It is a question upon which there are honest differences of opinion in the party, while there are other questions of equal or greater importance upon which we are thoroughly united, and I think we had better concentrate our strength instead of dividing it.

"There is some talk that Harrison will not have much following in his own State in the next campaign, and the Republican delegation will go for Gresham and Blaine. What do you think about that?

"I think it almost certain that Harrison will be renominated. That seems to be substantially a foregone conclusion. Mr. Blaine could probably defeat him in the convention, notwithstanding the immense patronage of the Administration, but as long as he remains in the Cabinet as a member of Mr. Harrison's official family he can not be a candidate, and up to the present time he has shown no disposition to resign."

Of Interest to Teachers.

Editor Bulletin—Frequent inquiries are made if the introduction of "Smith's History of Kentucky" as one of the subjects embraced in the examination of teachers supersedes the examination in the History of the United States. The examination in the former is additional, and an examination in the History of the United States is required as it has been heretofore. G. W. BLATTERMAN,
Supt. of Schools Mason County.

Whooping Cough.

"We have had an epidemic of whooping cough here, says A. B. Pope, Stewart, Tenn., and Chamberlain's Cough Remedy has been the only medicine that has done any good." There is no danger from whooping cough, when the remedy is freely given. It completely controls the disease. Fifty cent bottles for sale by Power & Reynolds.

Weekly Weather and Crop Bulletin.

The weekly crop bulletin of the Kentucky State Weather Service, in co-operation with the United States Signal Service, for the week ending June 20 says: "Reports received indicate that the weather conditions of the past week were more favorable for all crops than any other period in months. The temperature was slightly in excess of the normal, with about an average amount of sunshine. Local showers occurred almost every day, and were general throughout the State. Under these conditions corn, oats and meadows, which were very backward, revived greatly, and with no other setback will yield excellent crops. The wheat harvest is in full progress, and, although reports from different counties vary somewhat as to the character of the crop, it is certain that upon the whole it will at least be an average one. Tobacco setting is completed, and the young plants are doing nicely. Fruits were never better."

Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be the most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

Special Notice to Contractors.

OUR NEIGHBORS.

SARDIS.

There is a tension on the telephone wire from Maysville to Olivett. It will soon be "halloo" when the stations are established. Burns Trigg and C. O. McConlogue re-adjusted the wire.

A letter from Philadelphia says our late visitors, Mr. and Mrs. H. R. Beebe and daughter Miss Blinnie, had arrived safely in that city. Mrs. Beebe, who had been quite ill, stood the trip well.

Sardis is on the improve. Tom Suit, G. W. Dye and T. P. Ray have had their homes repaired. The late rains have given the garden a grand boom. J. M. Ball, Jas. Bratton and Jas. Leachman are rejoicing in fine vegetable and fruit crops.

As soon as the debate closed at Fairview the press opened fire on the polemic gladiators. J. B. Bruner, through the Western Recorder, and J. W. McGarvey, in the Apostrophe Guide. Each claims a victory for his special champion. A good deal of enthusiasm has been gotten up in both parties by the report that the battle is to be fought over again at Dover in the near future. "On with the debate—let words be unconquered."

The architect and his employees from the Dayton, O., Marble Works, with the aid of an eight-horse team and a derrick, placed in position Saturday last the Wilson monument at Mayslick. The monument occupies a commanding site—a knoll in the north corner of the cemetery, ten feet above the St. and L. pike, overlooking the old homestead, the village, and an exceptionally beautiful estate, which has been in the hands of the Wilsons and their ancestors for the last century. The monument is of Maine granite, twelve feet in height, with a base eleven by sixteen feet; total weight 67,000 pounds. A series of vases leads by steps to the die, which is square and near four by six feet; from the corners of this die rises four Corinthian fluted columns, to which are crowned by a finely ornamented composite cap. The Ionic and Doric orders of architecture are represented in this work of art. The monument is every way worthy of her (the widow of late Judge) who selected it, and of him in whose honor it is reared. It will portray to posterity three elements of John Thomas Wilson's character—solidity, simplicity, plainness. The only inscription is "Wilson," in high relief, and the monogram "W. W." on opposite panels. The plat is about twenty feet square, enclosed by iron railing and all the members of this branch of the Wilson family are buried here, substantial markers indicating the heads of the graves, to-wit: Thomas Wilson, born 1751, died 1832; Susan Wilson, born 1750, died 1854; Warner Wilson, died 1852; Amanda Conner, (wife of G. T. Allen) born 1828, died 1863; Jasper S. Wilson, born 1828, died 1871; Jabez Wilson, born 1829, died 1882; John Thomas Wilson, born 1824, died 1890. May they rest in peace. J. B. II.

BURTONVILLE, LEWIS COUNTY.

Died, at his residence in Rectorville, Marshall W. Stubbfield, June 18, 1891, in the seventy-third year of his age. His remains were buried

by Hamrick Post No. 22 and Joe Heiser Post No. 13, G. A. R. A large procession of friends attended the funeral. Deceased was a Lieutenant in Company I, 4th Kentucky Mounted Infantry, and was a member of Hamrick Post.

The F. and L. V. has elected the following officers for the ensuing year: President—W. B. Cropper. Vice President—J. H. Fields. Secretary—S. J. Parsons. Assistant Secretary—William Jones. Chaplain—Elder Wm. Carns. Treasurer—Wm. Prince. Doorkeeper—Daniel O'Connor. Assistant Doorkeeper—Wm. Jones. Janitor—R. M. Johnson.

At a called meeting of Hamrick Post No. 22, G. A. R., the following preamble and resolutions were adopted:

WHEREAS, It has pleased the Supreme Commander of the Universe to remove from our midst our late comrade, Marshall W. Stubbfield; therefore be it

Resolved, By Hamrick Post, G. A. R., that while we bow in humble submission to the will of the Commander in Chief we do not the less mourn for our comrade, who has been called from labor to rest, and has joined that grand army above.

Resolved, That this Post tenders its heartfelt sympathy to the family and relatives of our deceased comrade.

Resolved, That these resolutions be entered on the minutes of this Post, and that a copy of them be sent to the family of our deceased comrade.

Resolved, That Miss Lila Stubbfield be recommended to fill the vacancy in the postoffice caused by the death of comrade Stubbfield, late postmaster at Rectorville.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Persevere.

With printer's ink, consistent,
One hundred times, or more from it turn,
And that one word's persistent.

Weekly Review of Cincinnati Tobacco Market.

The offerings at auction for last week were 2,765 hds., classed as follows: 787 hds. Mason County (Ky.) District; 541 hds. Pendleton County (Ky.) District; 367 hds. Owen County (Ky.) District; 606 hds. Madison County (Ky.) District; 606 hds. Brown County (Ohio) District; 15 hds. Indiana and 74 hds. West Virginia, against 2,554 hds. the previous week. Total offerings for the year to date, 57,467 hds., against 56,430 hds. same time last year.

Receipts for the week.....1,563
Receipts same week last year.....1,810
The offerings were larger than for some time and the receipts the largest this year, and an increase in stock of 721 hds. is shown. The market did not show any marked change from the previous week, there being a strong, active demand for good and fine leaf from the opening to the closing sales, manufacturers being ready bidders and taking all offered at full and satisfactory prices. Medium leaf and colory trash and lugs show an active demand and sell at full figures. For common trash and lugs, the supply of which is large, there was a fair demand, but nondescripts were, as usual, little sought after and prices, in consequence, were low.

Of the 2,765 hds., 583 sold from \$1 to \$3.95, 591 from \$4 to \$3.95, 381 from \$6 to \$7.35, 224 from \$8 to \$9.95, 408 from \$10 to \$14.75, 397 from \$15 to \$19.75, 78 from \$20 to \$24.75, 5 from \$25.25 to \$28.75, 3 from \$31.25 to \$33.75, and 1 at \$35.50.

Louisville Tobacco Market.

Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.
Sales on our market for the week just closed amount to 3,727 hds., with receipts for the same period of 3,301 hds. Sales on our market since January 1st amount to 77,392 hds. Sales of the crop of 1890 on our market up to this date 51,331 hds.

The market has not been so much crowded for the past week and we are glad to be able to report a little stronger feeling in the medium and common grades of hurley; the good to fine types and colory grades continue very strong. The country generally has been blessed with rain and we presume the majority of the crop has been planted.

The following quotations fairly represent our market for new burley tobacco:
Trash (dark) or damaged tobacco.....\$ 2 00@3 50
Colory trash.....4 00@10 00
Common lugs, not colory.....4 00@6 00
Colory lugs.....7 00@15 00
Common leaf.....8 00@12 00
Medium to good leaf.....12 00@18 00
Good to fine fillers.....18 00@23 00
Select wrappry tobacco.....23 00@29 00

HANDWRITING BY TELEGRAPH.

Production of Legible Characters in Penmanship On a Line Over a Thousand Miles.

The Writing Telegraph Company of Chicago succeeded Sunday in transmitting handwriting 1,030 miles, the distance of the Postal Telegraph Company line between Chicago and New York. The test was made in the main office of the Postal Company under the direction of General Manager Gump and in the presence of many newspaper men. The rain east of the mountains and the frequent contact with wires interfered with the writing and destroyed the legibility of the characters, but the ability of the instrument to reproduce the handwriting was proved to the satisfaction of all present. A message written by a Cincinnati Enquirer correspondent to New York was received, and every letter was clearly drawn.

It is estimated that fully 1,000 reapers are running in Mason County to-day. That means that about 12,000 acres of the golden grain will be in the sheaf and shock at sundown this evening. A farmer who was in from Washington this morning said the harvesters could be seen in nearly every wheat field.

Four of the get of Electioneer have entered the 230 list this season. The son of Green Mountain Maid now stands at the head of the record-producing stallions. The next question to be considered is, will his blood breed on with as much uniformity as that of George Wilkes? He has begun well, but it will take time to develop the facts. As far as tried, trotting speed comes from the sons and daughters of Electioneer.—Turf, Field and Farm.

DRIVEN OUT OF CAMP.

Serious Labor Riot at a St. Louis Suburb.

ITALIAN LABORERS ATTACKED.

One of the Number Stabbed, About Twenty Others Compelled to Flee for Their Lives—The Foreigners' Valuables and Money Confiscated by the Gang of Americans—The Outrage Will Be Brought Before the Proper Authorities.

ST. LOUIS, June 23.—A race riot between laborers employed by Contractor Workley at the Chain of Rocks, where the new water works are being constructed, occurred at 2 o'clock Sunday morning, in which one Italian was dangerously stabbed, over twenty of his fellow-countrymen driven from the camp and their valuables and money confiscated by the gang of Americans and other laborers making the attack.

The riot was primarily caused by the admittance into camp of a lot of Italian laborers and the report that Contractor Workley had gone to Chicago for more. All Saturday a feeling of revolt against the employment of Italian labor had been gaining in strength and bitterness. As soon as the laborers were paid off in the evening, they congregated at a saloon just outside the city limits, where they remained gambling and drinking bad whisky until the entire party were crazy drunk.

About 1 o'clock Sunday morning the party broke up and started for their sleeping quarters. On the way over some one suggested that they "drive out the d—daggers." The idea took like wildfire and the drunken crowd rushed into the tents of the sleeping foreigners, armed with sticks, clubs, knives and whatever else they could lay their hands on. The fight did not last long. The Italians were at too great a disadvantage, and after a brief resistance they fled in terror, leaving behind all their belongings. They carried away Cataline Francisco, one of their comrades, fatally wounded by a stab in the breast. The Italians made their way to this city, where they reported the matter to the police, and Francisco was taken to the city hospital, where his wounds were dressed. At the camp their departure was followed by a scene of pillage. Their valises, bundles and packages were broken open and the contents stolen. A rigid investigation was immediately begun by the police, and the following arrests made: Edward Manley, J. H. Jones, Michael Cahill, William Blair, William C. Brooks, Fred Leader and John Shiller. These men profess ignorance of the attack on the Italians, and say they were awakened by a commotion and merely aided in driving from camp the disturbers of their slumbers.

Italian Consul Dominico Ginnocchio is indignant over the attack on his countrymen, and will doubtless enter into a correspondence with his government on the subject. He has demanded of the chief of police protection for the Italians and also an immediate official investigation of the riot.

Old Well Known Bank Closed.

NASHVILLE, June 23.—The Nashville Savings bank, an old and heretofore considered a thoroughly reliable banking institution of this city, closed its doors at 2 o'clock yesterday afternoon. Its managers, Messrs. Julius and Max Sax, claim the suspension of business is due to stringency of money and their inability to get discounts in the east. Messrs. Sax believe they will be able to reopen their bank in a month and pay their depositors in full. The assets are \$664,956. The liabilities will be about the same.

Wine and Women Caused His Ruin.

NEW YORK, June 23.—Joseph Arthur Safford was arrested last night on a telegram from the police authorities of Columbus, O. Safford is an actor under the stage name of Jack Ashton. He was employed as bookkeeper by Perry R. Smyth, a picture frame dealer at Columbus, and on the 13th inst. he robbed his employer of \$900 and came to this city. No money was found on him, and he claimed to have spent it all on wine and women. Safford was held.

Iowa Weather.

DES MOINES, June 22.—This week's bulletin of the Iowa weather and crop service reports the temperature about normal and the rainfall excessive in many localities. Heavy storms wrought considerable damage by washing out corn and flooding crops on bottom lands and in the southern districts the cereal crops are too rank with a tendency to lodge. The general effect, however, will be good in the state at large if followed by favorable weather for cultivating corn and ripening small grain.

Citizens Searching for a Villain.

BINGHAMTON, N. Y., June 23.—As the two Lathrop girls, aged respectively 14 and 19, were returning to their home from school at noon yesterday, they were assaulted on the public street by a young brute 19 years old. The youngest girl was terribly maltreated. Her clothing was entirely torn from her person, and she was so badly injured that she may die. A posse of citizens was at once organized and started in pursuit of the villain, who will probably be lynched if captured by the angry crowd.

Hoodlums Run a Town.

CANTON, O., June 23.—Marshal Ragan, of Malvern, left for a neighboring town to get married. The toughs of the town took advantage of his absence, and after getting full of whisky, almost turned the place upside down. Respectable people were afraid of their lives, and would not venture out of doors. Several of the parties have been arrested. Much damage done to property by the hoodlums.

Catholic Knights Excommunicated.

INDIANAPOLIS, June 23.—Father Gavist confirms the report from New Albany that Bishop Chatard has excommunicated thirty-eight members of the New Albany division of the Roman Knights of St. Edward for giving a Sunday excursion, selling beer and dancing.

SENSATIONAL ELOPEMENT.

An Indiana Farmer and His Neighbor's Daughter Suddenly Disappear.

GREENCASTLE, Ind., June 23.—Cyrus Martin has disappeared from his home in Jackson township, Parke county, leaving his wife and two children behind him. He gave out that he was going on an errand in the neighborhood, but instead of doing so he came on to this city, reaching here Thursday. He had not journeyed far until he had appropriated a road-cart and harness belonging to a neighbor, taking them from under a shed by the roadside.

But bad as was this conduct, it was pardonable compared with his more heinous offense in robbing his neighbor, James Hood, of his daughter Rebecca. It was never supposed that there existed the slightest intimacy between the two, and the surprise of the two families at their escapade can be imagined. The runaways were seen on Thursday at different points on the road leading to this city. Martin disposed of one of his horses before reaching here, and the other he sold to Black Brothers for \$25. He left the cart and harness with them to keep until he called for them on his return "from the south."

That was the last seen of Martin, and the supposition is that he and Miss Hood departed on one of the night trains. She is about twenty years of age, while her abductor is about ten years older. The owner of the cart came on here with Mr. Hood and recovered his property. The latter awakened the deepest sympathy by his depression over the erring girl's waywardness.

Fishermen's Luck.

GLOUCESTER, Mass., June 23.—Nearly the entire fleet of the Gloucester vessels employed in the cape shore mackerel fishing have arrived. Their catch is very small. The captains report that there were a large number of mackerel sighted this spring off the Nova Scotia shore, and the provincial fishermen made large catches. The cod fishing off the Flemish cape and Grand Banks is reported, by vessels just in, to be a complete failure. They spoke a large fleet of vessels, who reported no fish. Although the catch of mackerel this season is the smallest on record, prices are \$2 to \$3 lower per barrel than at this time last season.

Natural Gas Case Decided.

INDIANAPOLIS, June 23.—The supreme court has decided the gas pumping case, in which collusion was charged, although the decision in no way relates to that charge, but is wholly upon the merits of the case. In this decision, covering fifty pages and rendered by Judge Elliott, the law prohibiting the pumping of natural gas is held to be valid and the decision of the Porter county court is reversed. The decision holds that while gas is a commercial commodity, the state may put a limit on its use.

Alger on Blaine's Prospects.

SAN FRANCISCO, June 23.—General Alger with his family arrived here Sunday, having made a tour of the northwest. In a conversation with a United Press reporter, he denied that he was booming Mr. Blaine for the presidency. He said that Blaine did not want any booming. If the latter wanted the Republican nomination for the presidency he could have it, and needed no assistance from him or anyone else.

Wreckage of the Apia Disaster.

SAN FRANCISCO, June 23.—The schooner Sea Wolf from Apia, Samoa, arrived here yesterday. She had a cargo of wreckage from the United States ships Trenton and Vandalia, wrecked in the gale of March, 1893, at Apia. She also had on board the remains of twenty seamen belonging to those vessels, who were drowned at the time. The men will be buried at Mare Island navy yard.

Explosion in a Theater.

MUNICH, June 23.—An explosion of gas took place last night in the Munich theater. Three men were severely injured by the explosion. One of the injured men cannot survive. Immediately after the explosion the theater was discovered to be on fire, and before the flames could be extinguished the building was badly damaged.

No Doubt but What He Is Insane.

NEW YORK, June 23.—Joseph Fontiers, the steamer passenger of the French line steamer La Bretagne, who threw his five-year-old son Felix overboard on June 15, when the steamer was two days out from Havre, was yesterday committed to the pavilion for the insane at Bellevue hospital for examination as to his sanity.

Inventor of Nitro-Glycerine Dead.

NORTH ADAMS, Mass., June 23.—Professor George M. Mowbray, widely known as the inventor of nitro-glycerine, died last night after a protracted illness, aged 66 years. He was an able chemist, and was for several years employed in that capacity at the Zelonite works here. He leaves a wife and adopted son.

Old Hatch in New York.

NEW YORK, June 23.—R. P. Hutchinson, of Chicago, the "Old Hutchinson" whose proclivities for wheat speculation are well known, left the Astor house at 6:30 yesterday for what destination could not be learned. He arrived at the hotel yesterday morning and spent the day in sitting around the hostelry office, and several friends who called to see him found him in a pleasant mood.

A Law Violated by Slavin.

WASHINGTON, June 23.—Assistant Secretary Nettleton has received a protest stating that the admission to this country of Slavin, the prize fighter, was a violation of the contract labor law. The protest states that he came to this country under contract with a Philadelphia party. The matter is being considered with a view to enforcing the law if it has been violated.

Arrested for Embezzlement.

WASHINGTON, June 23.—Anton Karl, an old and trusted disbursing officer of the geological survey, was arrested yesterday afternoon for embezzling \$5,000 government funds. It is understood he confessed his guilt. He is under bonds for \$40,000 and the government will lose nothing.
